📍 Bengaluru, Karnataka

PROFESSIONAL SUMMARY

MCA student (2024–2026) with strong expertise in Python, Data Analytics, and Full-Stack Web Development. Proficient in building scalable web applications and implementing machine learning models for real-time data-driven solutions. Experienced in Flask-based backend development, REST API integration, and cloud deployment using AWS services. Skilled in data preprocessing, visualization, and extracting actionable insights using modern analytics tools. Demonstrates strong problem-solving ability, adaptability, and collaboration skills, with a focus on delivering efficient and scalable software solutions.

EDUCATION

Master of Computer Applications (MCA)

Dayananda Sagar University, Bengaluru | 2024–2026
CGPA: 7.26

Bachelor of Computer Applications (BCA)

APS College of Arts and Science, Bengaluru | 2021–2024
CGPA: 8.77

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Backend Development & Frameworks: Flask, REST API Development, API Integration, Server-side Logic

Frontend Technologies: HTML5, CSS3, Responsive Design

Data Analytics & Visualization: Pandas, NumPy, Data Cleaning, Tableau, Power BI, Data Visualization

Machine Learning & AI: Scikit-learn, Predictive Modeling, Model Evaluation, Data Preprocessing

Cloud & Tools: AWS (EC2, S3), GitHub, Jupyter Notebook, VS Code, Linux

Database & Query Optimization: MySQL, Database Design, SQL Queries

Core Concepts: Data Structures & Algorithms, OOP, Software Development Lifecycle (SDLC), Debugging

PROFESSIONAL EXPERIENCE

Web Development Intern

UTL Technologies Ltd, Bengaluru | Mar 2024 – May 2024

- Developed a dynamic web application using Flask (Python) for backend and HTML/CSS for frontend, ensuring efficient client-server communication
- Designed and implemented structured backend logic for handling user inputs and data processing

- Worked on debugging, testing, and optimizing application performance for better responsiveness
 - Gained hands-on experience in software development lifecycle (SDLC) including requirement analysis, development, and deployment
 - Collaborated with team members to build scalable and user-friendly application features
-

PROJECTS

Traffic Prediction & Smart Route Planner

- Developed an intelligent traffic prediction system using Python and machine learning algorithms to analyze traffic patterns
- Built models to forecast traffic congestion based on historical and real-time data inputs
- Designed a smart route planner to suggest optimal routes with reduced travel time
- Integrated data visualization techniques to display traffic trends and route efficiency
- Improved decision-making for route selection using predictive analytics

Stock Market Analysis System

- Developed a stock market analysis platform with real-time data visualization and trend analysis
- Implemented machine learning algorithms for stock price prediction
- Designed interactive dashboards for better understanding of financial data
- Applied data preprocessing techniques to improve model accuracy and insights

Digital Habit Therapy System

- Built a full-stack web application to track and improve user digital habits
 - Implemented authentication system and personalized dashboards
 - Integrated intelligent recommendation features for habit improvement
 - Designed responsive UI for monitoring user activity and progress
-

CERTIFICATIONS

- Cisco Certified Support Technician (Networking)
 - NASSCOM Certified Application Developer – Web & Mobile
 - Fundamentals of Data Analytics
 - Certified Secure Computer User (EC-Council)
-

KEY COMPETENCIES

Data Analysis & Visualization, Python Programming, Full-Stack Development, Machine Learning Basics, REST API Development, Problem Solving & Debugging, Cloud Computing (AWS), Database Management, Team Collaboration

ADDITIONAL INFORMATION

Languages: English, Kannada

Interests: Data Analytics, Web Development, AI Applications
